Administrator Evaluation: A Systems Approach

Introduction

The process of evaluating the Administrator is a very important tool in the improvement efforts of a school and the Diocese of Sioux City. It defines expectations, enhances communication, prioritizes School/Diocesan goals and assists the Administrator in maintaining accountability for improving student achievement and meeting the spiritual and social needs of our students.

Administrator evaluations should reflect a systems approach. Such an approach should be guided by a set of ethics, values, and beliefs that undergird the work so both the Administrator and members of the board can operate with integrity. During this evaluation process the Superintendent of Schools for the Diocese will use a variety of sources of data to complete the evaluation. The first source of data is the Individual Career Development plan created by the Administrator and shared with the Superintendent. The second source of information is the Board of Education survey which allows board members to express opinions on the how the Administrator is meeting the Diocesan/Iowa Standards for School Leaders (ISSL). The third source of data is the Superintendent's observations and interactions with the Administrator and their school. Finally, each administrator will annually produce artifacts to show how he/she is meeting two of the seven Diocesan/Iowa Standards for School Leaders each school year with the exception of the third year meeting three of the seven Standards. The result being that all seven Standards are covered at the end of three years.

The Diocese requires that the administrator be evaluated annually based on the six Iowa Standards for School Leaders as well as on a Catholic Identity standard. It is expected that persons new to administration will have a comprehensive evaluation during their initial year of employment. Best practice is for administrators who assume a new administrative position to have a summative evaluation during their first year in the new position. After the initial summative evaluation, annual formative assessment will be conducted around the Administrator's Individual Professional Development Plan (IPDP). The three-year summative evaluation requires documentation of competence on the six ISSL standards and the faith formation standard, meeting of School expectations drawn from the School's Comprehensive School Improvement Plan, Individual Professional Development Plan attainment, and other supporting documentation.

Operating Principles

A comprehensive Administrator evaluation process must:

1. Link to academic, spiritual, social and emotional growth for all students in the system.
Rationale: Multiple measurers of all types of student learning must be included in the definition of accountability.
2. Recognize the importance of the Administrator's work in the moral dimensions of leadership to facilitate a better quality of life for all groups, both inside the school community and in the greater community.
Rationale: The larger work of the Administrator is about shaping the future of the community and having a positive effect on people's lives.
3. Align with the six Iowa Standards for School Leaders (ISSL).
Rationale: State law recognizes six Iowa Standards for School Leaders (ISSL).
4. Have research-based criteria about effective Administrator behaviors which are substantiated by measurable data from multiple sources and are legal, feasible, accurate and useful.
Rationale: Standards of any kind are only effective if they meet propriety, utility, feasibility and accuracy measures, (Examples of multiple data sources are an Administrator self-assessment; a portfolio compiled by the Administrator; 360° feedback; the school improvement plan; artifacts that address previous goals, school board meeting agendas, etc.)

5. Provide opportunities for personal, professional and spiritual growth.

Rationale: Evaluation processes must address the whole person and be oriented toward continuous improvement. See Sample 2 (Individual Professional Development Plan) and Sample 3 (Remediation Form) in this packet.

6. Be ongoing and connected to school improvement goals.

Rationale: An evaluation is a process, not a once a year conversation, and must be connected to Comprehensive School Improvement Plans,

7. Connect the School's goals with the community's vision for its schools.

Rationale: Goals cannot be developed in isolation; School goals must reflect the community's highest hopes for its School.

8. Be intended to improve performance not prove incompetence.

Rationale: An effective evaluation process is predicated on a spirit of providing feedback for growth, not on finding evidence of shortcomings. If a board is considering evaluation for the purposes of termination, other processes should be employed.

Note: Nothing in this Handbook is intended to alter the terms of the Diocesan Administrative Manual of the Administrator Contract that has been signed by the Administrator.
