Introduction

The administrator evaluation process is vital to effective leadership and governance in our Catholic schools in the Diocese of Sioux City. It defines expectations, enhances communication, prioritizes School/Diocesan goals and assists the Administrator in maintaining accountability for improving student achievement and meeting the spiritual and social needs of our students. It is based on the Iowa Standards for School Leaders (ISSL).

Administrator evaluations should reflect a systems approach. Such an approach should be guided by a set of ethics, values, and beliefs that undergird the work so both the administrator and members of the board can operate with integrity. During this evaluation process the Superintendent of Schools for the Diocese will use a variety of sources of data to complete the evaluation. The first source of data is the Individual Career Development plan created by the administrator and shared with the Superintendent. Another source of information is the Administrator Performance Survey which allows board members and staff to share information on the how the Administrator is meeting the Diocesan/Iowa Standards for School Leaders (ISSL). The Superintendent may also include information from observations and interactions with the administrator and their school. Finally, each administrator will produce artifacts to show how he/she is meeting each of the seven Diocesan/Iowa Standards for School Leaders.

The Diocese requires that the administrator be evaluated annually based on the six Iowa Standards for School Leaders as well as on a Catholic Identity standard. It is expected that persons new to administration, holding an Initial Administrator License, will have a comprehensive summative evaluation during their first 2 years of employment. Administrators who assume a new administrative position, and hold a Professional Administrator License, will also have a summative evaluation during their first year in the new position. After the initial summative evaluation, an annual formative assessment will be conducted around the Administrator’s Individual Career Development Plan (ICDP) and include an annual school board survey. The summative evaluation requires documentation of competence on the six ISSL standards (A4) and the faith formation standard, meeting of school expectations drawn from the school’s Comprehensive School Improvement Plan, Individual Career Development Plan goal attainment, and other supporting documentation, including staff and board surveys.

Mentoring is also an important component of supporting administrators new to a Catholic school in the Diocese of Sioux City. New principals will participate in quarterly mentoring meetings with the Diocesan superintendent, and will also be paired with a veteran administrator of a Catholic school similar to his or hers for additional support and help as needed.

Operating Principles

A comprehensive administrator evaluation process must:

1. Link to academic, spiritual, social and emotional growth for all students in the system.

2. Recognize the importance of the Administrator’s work in the moral dimensions of leadership to facilitate a better quality of life for all groups, both inside the school community and in the greater community.

3. Align with the six Iowa Standards for School Leaders (ISSL), and a 7th standard centering on Faith/Catholic Identity.

4. Have research-based criteria about effective Administrator behaviors which are substantiated by measurable data from multiple sources and are legal, feasible, accurate and useful.

5. Provide opportunities for personal, professional and spiritual growth.

6. Be ongoing and connected to school improvement goals.

7. Connect the School’s goals with the community’s vision for its schools.

8. Be intended to improve administrator performance and provide for growth.
Each standard covers an area of significant administrative Catholic school responsibility, and specifically includes skills, knowledge, characteristics, and attitudes that affect leadership and governance in the Catholic schools of the Diocese of Sioux City. The acquisition and strengthening of these qualities and competencies is a developmental task, which requires periodic evaluation. The performance indicators are designed to not only assess performance, but perhaps more importantly provide criteria for improvement.

**Process**
The principal evaluation is facilitated by the Diocesan Superintendent. Data for the evaluation comes from the following sources:

- Individual Career Development Plan (ICDP)/goal-setting
- Superintendent observations
- Surveys from board members and staff
- Principal self-assessment

Each principal receives:
- A summary report of ratings and input data during his/her summative evaluation
- Feedback concerning annual goal setting

The Superintendent will prepare the summary report to be shared with the principal. The principal is responsible for utilizing the data in subsequent goal setting and Individual Career Development Plans (ICDP).

**Step One:** The administrator and Superintendent review the evaluation process and the specific types of data sources that will be used.

**Step Two:** Data Collection from principal self-assessment, school board and staff surveys.

**School Board**
- Surveys will be shared electronically. Board members must sign the survey, or the data will not be considered or included in the summary report. All responses will remain confidential. Any questions may be directed to the superintendent.

**Certified and Non-Certified Staff**
- Surveys will be shared electronically. Staff members must sign the survey, or the data will not be considered or included in the summary report. All responses will remain confidential. Any questions may be directed to the superintendent.

**Step Three:** Data Analysis and Communication

The Superintendent analyzes all data and completes administrator evaluation form (see page 8) summary report. The principal and the Superintendent meet to review the evaluation and discuss strengths and possible growth areas. The Superintendent will consult with the principal to determine the best method for sharing results with the school board and pastor which could include but is not limited to:
• meeting with the board chair and/or pastor, who in turn, would share results in executive session at the next board meeting
• Superintendent would share results in executive session at the next board meeting
• Other options as determined by Superintendent, administrator, board chair and/or pastor

Any copies of evaluation information should be collected back by the board chair and destroyed.

**Step Four: Goal-setting**
The principal utilizes the data in subsequent goal-setting and Individual Career Development Plans (ICDP).
